CAREER OBJECTIVE

Seeking a challenging role where I can collaborate with talented teams & hone my skills. Embracing continuous learning, I aim to stay at the forefront of emerging technologies, applying them creatively to drive organizational growth and achieve exceptional results.

SKILLS

Expertise: HTML5 | CSS3 | Tailwind | JavaScript | React | React Router Dom

Comfortable: Bootstrap | Firebase | MongoDB

Familiar: ExpressJS | NodeJS | JWT | NPM | Stripe

Tools: VS code | Github | Netlify | Vercel | Figma

Additional Skill: Proficient in MS Excel, with experience in data analysis and manipulation.

MY PROJECTS

GlobalSpeak- (Foreign Language Training School):   **Live | Client side | Server Side**

• Separate dashboards for Admin, Instructor & students. No access to others' dashboards.

• Admin assigns roles, approves classes. Instructors add classes. Students enroll in the classes.

• Secure online registration and payment system for summer camp sessions and language classes.

Technologies: React VITE | React Router | Firebase | MongoDB | ExpressJS | NodeJS | Stripe

Action Toys- (Marketplace Website):   **Live | Client side | Server Side**

• Designed a fully functional marketplace website where users can buy and sell products.

• Implemented user authentication and authorization functionalities to ensure secure access.

• Created intuitive product listing pages, search functionality to enhance user experience.

Technologies: React VITE | React Router | Firebase | MongoDB | ExpressJS | NodeJS

Food Lovers- (Restaurant Ordering System):   **Live | Client side | Server Side**

• This website allows customers to browse menus and place food orders.

• Implemented user-friendly interfaces for menu browsing, cart management, and order tracking.

• Implemented features such as order customization, special requests etc.

Technologies: React VITE | React Router | Firebase | MongoDB | ExpressJS | NodeJS
